Why Wisznice?

Wisznice is a predominantly agricultural commune with tourism potential, mainly agrotourism. Beautiful landscape, presence of the Zielawa River, lake in Horodyszcze and numerous forest complexes create a wealth of flora and fauna uncontaminated by civilization pollution.

Research and observations also indicate that there are many interesting and rare species of plants and animals in the area of Wisznice commune. Additional attractions favouring recreation in the commune are numerous historical monuments closely related to the past of this area.
